HEARO

"I've got this."
People with disabilities live more independently with Hearo.

Everybody needs some me-time.

Hearo is a remote support system designed for independence. By integrating security, reminders, notifications and environmental controls into a single hub, Hearo helps people living with disabilities live without full-time in person supervision.

How Hearo Works

Self-sufficient, but not alone.

Hearo is an invisible ally in helping individuals live confidently on their own. Discreet sensors and devices throughout the home promote 24-hour security and accountability, without inhibiting the resident's sense of freedom.

Tell Us How Hearo Can Help

At Hearo we exist to help people with disabilities by giving them their freedom back.

Help us help you. Whether you are an Individual, Family Member or Guardian, Remote Support Staff, or Provider, tell us a few things about what you need and how Hearo can better help you.
